

## Kurundu Oya water fall

The source of this fall is Kurundu ganga. Therefore, the name Kurundu Oya is derivate from the name of its source. The height of this fall is about 189 meters and the width

ranges with the rain fall. It is among the heights waterfalls of the central hills.

The fall situated in Nuwara- Eliya district the south west direction of Watumulla town. Thus Kurundu - Oya can be reached from Kandy, Nuwara- Eliya road via Rikillagaskada. The location of the fall is very picturesque and breathe taking while winding through Rilamulla Estate which is close to Mathurata area. This amazing water fall seen as two segments and belongs to the dry zone of the central hills. The distance between the segment is around 20 meters.

## Galaboda Water fall

This picturesque silvery cascade is situated in Nuwara Eliya district. It is 98 feet in height and surrounded by green forest bestowed with endemic as well as exotic plants and animals.

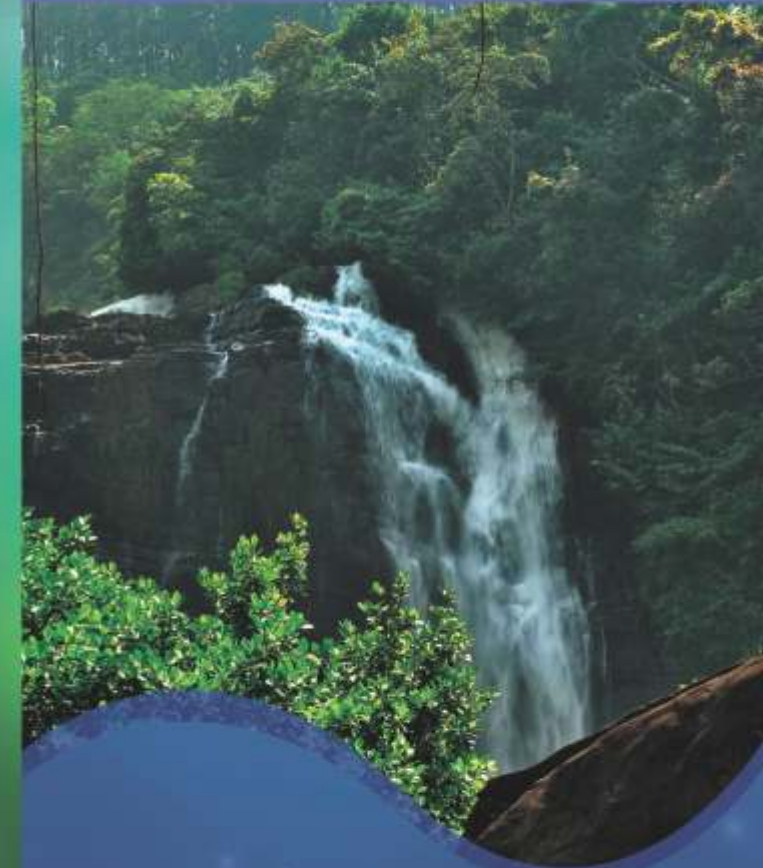

This fall swells and appears as heavenly cascade in rainy seasons along with the dry periods. There are plenty of non-saline aquatic species dwell in the waters of the fall. Among them most attractive species are inland water plant called as "Gal Idda" and fresh water prawns. Some rare species of fresh water fish also live in the cool waters of the fall. Colombo- Badulla railway track is beautified by this fall which can be seen as a silver chain of an Up country beauty. Therefore, Galaboda railway station is famous as an enchanted place of travelers since this fall is situated in the back yard of the station. Then it is winding through the green tea plantations.

There are two accesses to the fall through beautiful and isolated Galaboda village. Railway track is the best way to reach the fall as other transport facilities are poor. Amazing Galaboda village is located in between Nawalpitiya and Watawala, in Colombo - Badulla railway track. The fall can be reached after passing 1.5 Km from the Galaboda Station. If any traveler takes the Nawalapitiya, fall can be reached across Mapakanda. Many pleasurable since with Hein ford fall and other beautiful small silver lines can be enjoyed while travelling 10.5 Km
